NOTES ON STORAGE

KEEP AWAY
FROM DIRECT
SUNLIGHT!

KEEP DRY!

TEMPERATURE
LIMITS:
MIN. 0 °C / 32 °F
MAX. 20 °C / 68 °F

The product has been manufactured with the greatest possible care and is intended for immediate use. Store in a cool and dry place, especially during longer storage, and protect from direct sunlight. If stored properly, no significant chemical changes are to be expected in the first 6 months. High temperatures and high humidity lead to increased microbial substance degradation and volume loss. For long stored substrates, we recommend as a precautionary measure a chemical substrate analysis and, if necessary, a germination test.
